

Manalapan Recreation

Presents

Mad Science Summer Camp

Exciting activities and spectacular demonstrations to capture the children's attention
Each day, the children will receive a **take home experiment and project sheet** to reinforce the camp's topic
Our instructors are **energetic, enthusiastic, and experienced!!!**

Mad Machines & Junior Engineers

August 13 to August 17, 2018

9:30 AM -12:30 PM

Whether your child loves to build things or destroy them, this week of camp includes lots of both!

The junior Mad Science engineers will design and build bridges and "skyscrapers" using simple tools and their imaginations.

Kids will even construct a geodesic dome big enough for all the campers to sit inside!

Then the machine madness starts... Children will discover how many different machines, simple & complex, we use in our daily lives. Campers will have fun building their own catapults to take home and will work with simple machines such as pulleys, wedges, screws & levers. After the simple machines, we move on to fun with the Mad Science robots! We'll play robot soccer, test line-tracking robots, and help our team direct our sound activated robots around an obstacle course, all the while learning the science of robotics!

Camp is held at the Manalapan Recreation Center
Kuschick Pavilion.

Open to resident children entering grades 1 through 5 this fall

Fee is \$135 per child.

A minimum of 12 participants is required (Class max is 20).

Credit card registration accepted online only:
