## **SUEZ SETS SCHEDULE FOR SPRING 2019 WATER MAIN AND FIRE HYDRANT CLEANING IN MANALAPAN**

**Program Will Help Ensure Efficient Fire Flows and Maintain Excellent Water Quality**

SUEZ today announced that it is scheduled to begin spring water main and fire hydrant cleaning throughout its service area beginning on or about Monday, March 25, 2019 through about Friday, April 26, 2019, weather permitting, from 9 AM to 3:30 PM daily, except weekends. Please note there will be no flushing on Friday, April 19 in observance of Good Friday. The following is a comprehensive list of areas SUEZ crews will flush within the Township of Manalapan during this program:

- Knob Hill
- Four Seasons at Manalapan
- Meadow Creek Estates
- Battleground Estates
- Windswept Knolls
- Manalapan Woods
- Sweetmans Estates
- Tracy Village
- Samaritan Center
- Millhurst System- Station Ave & Millhurst Rd

“Fire hydrants are essential in providing water for fire protection and also serve a critical role in ensuring that SUEZ customers receive top quality water service within their homes and businesses,” said Jim Mastrokalos, Director of Operations. “Removing sediment buildup from the winter months in hydrants and the water mains not only sustains high quality drinking water but also improves carrying capacity within the pipes and ensures reliable use for fire protection,” he added.

During the program, customers may experience temporary incidences of low pressure or volume and slight discoloration or cloudiness of tap water. It is recommended that customers shut the water off then check clarity by running cold tap water for a few minutes, which allows new water to work its way through the pipes.

If residential and business customers observe SUEZ crews working on streets where their homes and offices are located, the Company advises not to use tap water, washing machines or dishwashers until the brief activity is completed. Customers may wish to fill up clean bottles or containers with tap water ahead of time and store them in the refrigerator to use for drinking or cooking while the program is conducted in their area. Customers are also asked to be attentive while walking or driving near SUEZ trucks and crew members to ensure safety.
