# ASL Educator's Workshop

## American Sign Language for Teachers!

These workshops are designed to give teachers the tools to incorporate American Sign Language (ASL) into the current curriculum.

As educators, we know that there are different types of learning styles in the classroom; auditory, visual and kinesthetic. Using sign language in your program encompasses all learning styles. The students will hear you when you say the word, he/she will see you make the sign and will also experience/feel the word as he/she learns to sign.

These workshops are designed to suit the specific needs of the school. Teachers will learn about the research supporting the use of sign language in the classroom, they will be given resources and will be provided with vocabulary specific to classroom use. Hope to see you there!
