SUEZ ISSUES ANNUAL WATER QUALITY REPORT

Customers Can Access Their Consumer Confidence Report on the Web

Customer confidence in water quality is more important than ever. The latest SUEZ annual Consumer Confidence Report (CCR) details the quality of drinking water provided to customers during 2019. The report is available online for customers.

“We know how critical it is to have access to high quality drinking water, especially during these challenging times. We’re pleased to advise our customers that our water continues to meet or exceed all state and federal regulations for safe drinking water,” said Jim Mastrokalos, director, operations. “The report is required by the U.S. Environmental Protection Agency (EPA) and the New Jersey Department of Environmental Protection (NJDEP). The CCR is an important tool in educating our customers about the quality of their tap water.”

The web address listed below will take customers directly to the water quality report:

www.mysuezwater.com/ManalapanCCR2019.

During the current health crisis, the company encourages its customers to access the report online. If necessary, printed copies of the report are also available. Customers can call the company’s customer service center at the number printed on their bills.

About SUEZ North America

SUEZ North America operates across all 50 states and Canada with 3,000 employees dedicated to environmental sustainability and smart and sustainable resource management. The company provides drinking water, wastewater and waste collection service to 6.7 million people on a daily basis; treats 560 million gallons of water and 460 million gallons of wastewater each day; delivers water treatment and advanced network solutions to 16,000 industrial and municipal sites; processes 160,000 tons of waste for recycling; rehabilitates and maintains water assets for more than 6,000 municipal and industrial customers; and manages \$4.1 billion in total assets. The company posted revenues of \$1.1 billion in 2018 and is a subsidiary of Paris-based SUEZ.

About SUEZ:

Since the end of the 19th century, SUEZ has built expertise aimed at helping people to constantly improve their quality of life by protecting their health and supporting economic growth. With an active presence on five continents, SUEZ and its 90,000 employees strive to preserve our environment’s natural capital: water, soil, and air. SUEZ provides innovative and resilient solutions in water management, waste recovery, site remediation and air treatment, optimizing municipalities’ and industries’ resource management through “smart” cities and improving their environmental and economic performance. The Group delivers sanitation services to 64 million people and produces 7.1 billion m3 of drinking water. SUEZ is also a contributor to economic growth, with more than 200,000 jobs created directly and indirectly on an annual basis, and a provider of new resources, with 4.2 million tons of secondary raw materials produced. By 2030, the Group is targeting 100% sustainable solutions, with a positive impact on our environment, health and climate. SUEZ generated total revenue of €18.0 billion in 2019.
