Introduction to Voice is for beginner singers who want to learn the fundamentals of voice and have fun with their peers singing along to their favorite tunes!

Class will cover posture, breathing techniques, solfeggio, vocal hygiene, positioning of vowels and consonants with the articulators during singing and every class will end with a sing-a-long of popular tunes to practice the lessons learned each week.

Class will also touch on social skills needed to perform and boost their confidence to be able to sing in front of an audience.

Students will be provided with a clear face shield to use each class.

This will make it possible to see their faces while singing and learning new techniques while complying with NJDOH Covid mandates
