

# **FREE** EDUCATIONAL WORKSHOP

---

# The Basics Of Medicare

## About

This informative workshop will provide you with information on Medicare basics, important terminology, enrollment periods, plan types, and cost assistance. Attendance of this seminar will allow your members to understand “Medicare With Confidence.”

There are ever-changing Medicare coverages that many seniors are unaware of. Often, we hear of the medical nightmares that seniors go through, and it is our mission to address these concerns and examine how seniors can navigate the changes to Medicare, as well as learn about the benefits that they may be eligible for.

I do not offer every plan available in your area. Any information provided is limited to those plans we do offer in your area. Please contact Medicare.Gov or 1-800-Medicare to get information on all your options.

## What to do
