NOTICE OF PUBLIC HEARINGS

IN THE MATTER OF THE PETITION OF NEW JERSEY-AMERICAN WATER COMPANY, INC. FOR APPROVAL OF INCREASED TARIFF RATES AND CHARGES FOR WATER AND WASTEWATER SERVICE, AND OTHER TARIFF MODIFICATIONS

OAL DOCKET NO. PUC 03132-2026S

BPU DOCKET NO. WR26010010

TO OUR CUSTOMERS:

PLEASE TAKE NOTICE that on January 16, 2026, New Jersey-American Water Company, Inc., (“NJAWC” or “Company”) filed a petition with the New Jersey Board of Public Utilities (“BPU” or “Board”), pursuant to N.J.S.A. 48:2-21, N.J.S.A. 48:2-21.1, and N.J.A.C. 14:1-5.12, seeking to increase rates for water and wastewater service and to implement other tariff revisions (“Petition”). The Company proposed that these changes be approved for service rendered on or after February 16, 2026, or at such later date as may be determined by the Board. Based on the Company’s total projected operating revenues for the twelve (12) months ending March 31, 2027, the new rates proposed in the Petition would yield additional operating revenues of \$146.4 million or 13.18%. The total projected operating revenues include the revenue being recovered through the Distribution System Improvement Charge (“DSIC”), Wastewater System Improvement Charge (“WSIC”), and the Resiliency and Environmental System Investment Charge (“RESIC”) previously approved by the Board, excluding revenues recovered through the Lead Service Line Replacement Charge (“LSLRC”), the Special Program Charge (“SPC”), the Purchased Water and Purchased Wastewater Treatment Adjustment Clauses (“PWAC” and “PSTAC”, respectively).

If the proposed rates are approved by the Board, the average residential water customer using 5,793 gallons per month will see their bill increase from \$83.87 to \$93.89, an increase of \$10.02 or 11.95% per month and the average residential wastewater customer will see their bill increase by about \$8.20 per month. The actual percentage increase to specific customers will vary according to the applicable rate schedule and level of the customer’s usage. The changes proposed in the Petition will result in the changes indicated in the chart below.

Currently, the DSIC is \$2.56 for a 5/8" meter, the WSIC is \$3.78 for a 5/8" meter, and the RESIC is \$0.79 for a 5/8" meter, effective November 29, 2025.

The above-described comparisons of average present and proposed rates will permit customers to determine the approximate net effect upon them of the proposed increases and adjustments in rates. Any assistance required by customers in this regard will be furnished by the Company upon request. Complete information about the present and proposed rates for every class of customer is available on the Company's website at www.newjerseyamwater.com by first selecting Customer Service and Billing, then Your Water and Wastewater Rates. Please note that the Board, in its discretion, may apply all or any portion of whatever rate increase the Board may ultimately find just and reasonable to any class or classes of customers or to any rate schedule or schedules, or in a manner different than what the Company has proposed in its filing. Accordingly, the final rates and charges to be determined by the Board in this proceeding may be different than what the Company has described herein.

In addition to the proposed rate changes, NJAWC is proposing other changes and additions to its Tariff, some of which would apply to all customers and others that would apply only to specified customers. These changes include, but are not limited to, changes to various rate schedules and standard terms and conditions.

Parties of Record:

Brian O. Lipman, Esq., Director, New Jersey Division of Rate Counsel
Christine Soures, Esq., Polsinelli PC, on behalf of New Jersey-American Water Company, Inc.

BY THE BOARD:¹

On January 16, 2026, New Jersey-American Water Company, Inc. (“NJAWC” or “Company”) filed a petition with the New Jersey Board of Public Utilities (“Board”) seeking approval of an increase in its base rates for water and wastewater service of approximately \$146.4 million for services rendered on and after February 16, 2026 (“Petition”).²

NJAWC is engaged in the production, treatment, and distribution of water and collection of wastewater within its defined service territory within the State of New Jersey. The Company’s service territory includes portions of: Atlantic, Bergen, Burlington, Camden, Cape May, Essex, Gloucester, Hunterdon, Mercer, Middlesex, Monmouth, Morris, Ocean, Passaic, Salem, Somerset, Union, and Warren counties. As of December 31, 2025, the Company provides service to approximately 680,000 water and fire service customers and 70,000 wastewater service customers.

According to the Petition, the primary driver of the proposed rate increase is the Company’s capital investment since its last base rate case to maintain and improve the Company’s infrastructure to continue to provide safe, reliable, and adequate service to its customers.

¹ Commissioners Reborn and Coviello abstained from voting on this matter.

² By letter dated January 20, 2026, the Company notified the Board that it would not implement the proposed rate increase, on an interim basis, prior to the effective date of the Board’s Initial Suspension Order for this matter.

Among other requests, NJAWC seeks authorization to:

- a. Increase rates to produce additional revenues of approximately \$146.4 million above the annual level of present rate revenues for the test year period ending June 30, 2026, utilizing a return on equity of 10.75%;
- b. Recover an acquisition adjustment related to the Company's purchase of the South Orange Village water system as well as the original cost of Gordon's Corner Water Company's acquired assets less accumulated depreciation;
- c. Continue regulatory accounting deferral treatment for several items. for pension and other post-employment benefits;
- d. Continue and expand its Universal Affordability Discount Tariff;
- e. Incorporate the roll-in of the Company's current Distribution System Improvement Charge, Resiliency and Environmental System Investment Charge, and Wastewater System Improvement Charge into current rates; and
- f. Revise the Company's tariffs to reflect the requests in the Petition.

Because the proposed revisions, if approved, will likely increase existing rates and change or alter existing classifications in NJAWC's tariff, it is **HEREBY ORDERED** as follows:

- (1) Pursuant to N.J.S.A. 48:2-21(d), and consistent with N.J.A.C. 14:1-5.12, the proposed revisions are suspended until June 16, 2026, unless prior to that date the Board makes a determination disposing of the Petition or enters an Order further suspending the proposed revisions;
- (2) NJAWC shall, at least ten (10) days prior to the date set for hearing on the Petition by the Office of Administrative Law ("OAL"), file with this Board, and with the OAL, proof of compliance with the notice provisions of N.J.S.A. 48:2-32.2 and N.J.A.C. 14:1-5.12(b) and (c), which notice shall include a statement that any relief found by the Board to be just and reasonable may be allocated by the Board to any class or classes of customers on any rate or schedule as the Board may determine; and
- (3) NJAWC shall serve copies of this Order upon the OAL, the New Jersey Division of Rate Counsel (140 East Front Street, 4th Floor, Post Office Box 003, Trenton, N.J. 08625), the clerk of each affected municipality, the clerk of the Boards of County Commissioners of each affected county, and, where appropriate, the executive officer of the affected county within its service area. Service of the Petition, notice of hearings, and this Order may be made simultaneously. Proof of service of this Order shall be filed with the Board.

This Order shall be effective on February 18, 2026.
